A study released today attempts to explain ‘Why falling in love is good for blood pressure, pain relief and even allergic reactions’. Biologist and World Transformation Movement founder, Jeremy Griffith provides the profound explanation: “The clue to what happens when we fall in love is revealed in the word fall, because in letting ourselves fall in love with someone we are, in effect, letting go of reality and transporting ourselves to another world, an ideal one—to how the relationship between humans could be, and, in fact, once was!” Read his full explanation here: www.humancondition.com/why-do-we-fall-in-love/__________ See here for the study released today, syndicated across media outlets: www.dailymail.co.uk/health/article-6181807/Why-falling-love-good-blood-pressure-pain-relief-allergic-reactions.html Falling in love is the result of activity in 12 areas of the brain working together, according to researchers at the University of Western Virginia in California.

Latest News & Brief History of the WTM

The following is a chronological documentation of the main events in the life of the World Transformation Movement.
OCTOBER — A MUST-WATCH, SUPER-HELPFUL NEW OPENING VIDEO FOR OUR FREEDOM ESSAY SERIES GOES LIVE!

In October 2018 the important new opening video to our Freedom Essay series, Video/F. Essay 1: Your block to the most wonderful of all gifts, went live. This video/essay quickly describes and explains how to overcome the ‘deaf effect’ difficulty of accessing this fabulous world-saving and life-transforming understanding of the human condition that the whole human race has lived in hope, faith and trust would one day be found.

Freedom Essay 56: Why there have been ferocious attacks on the WTM now provides a more complete explanation for why these attacks occur.

And revisions have also been made to the following Freedom Essays:

- Video/F. Essay 2: The false ‘savage instincts’ excuse
- F. Essay 30: Resignation
- F. Essay 35: Left-wing politics leads to the death of the human race
- F. Essay 44: Art makes the invisible visible

JULY — FOUR EXTRAORDINARY ‘GAME-CHANGING’ NEW VIDEOS FROM JEREMY GRIFFITH GO LIVE

In July 2018 four extraordinary new presentations by Jeremy Griffith have been added to the Video Series at the top of the WTM homepage: Video/F. Essay 4: The ‘instinct vs intellect’ treatise is obvious — short, and Video/F. Essay 10: What exactly is the human condition?, and Video/F. Essay 11: The difficulty of reading FREEDOM and the solution, and that ‘solution’ is in F. Essay 13: The WTM Defeat Effect Course, which is designed to help people overcome the ‘deaf effect’ difficulty of reading about the human condition.

Video/F. Essay 4 has been described as ‘such an important addition to the WTM website that it could be the game-changer for the whole project of bringing these crucial insights to the world’. Its special value is that it makes clear that humans do have a cooperative and loving ancestry, and therefore how guilt-ridden we have been for corrupting that state, which is an insight that makes all of human behaviour suddenly understandable.

These new presentations now become part of the Freedom Essay series along with other significant additions including F. Essay 14: ‘Savage instincts’ excuse leads to human extinction, and F. Essays 57 and 58: The Magnificence of the Transformed State.

We are also thrilled to announce that the Freedom Essays have been recorded as podcasts! Narrated by Tim Macarney-Snape AM OAM, a Founding Director and Patron of the World Transformation Movement, and the first Australian to climb Mt Everest, the podcasts can be listened to, or downloaded as an audio file, by clicking on the ‘listen’ icon at the top of each essay.

If you are not currently subscribed to the series, you can subscribe here — and remember, you can access the entire Freedom Essay series on the homepage.

OCTOBER — NEW VIDEO: SAVING WESTERN CIVILISATION FROM THE RELIGION OF LEFT WING DOGMA

This is a 2-part presentation. In Part 1 Jeremy Griffith is able to use his understanding of the human condition to finally expose what exactly it is that is so incredibly dangerous about the politically correct culture that is presently threatening to take over the world.

Following this complete demolition of the politically correct movements’ ‘false start’ to a cooperative and loving, ideal, ‘correct’ world, Jeremy then, in Part 2, explains how understanding of the human condition brings the REAL start to a transformed world through the psychological redemption, reconciliation and rehabilitation of the human race.

This all-exciting explanation in Part 2 of how a great tsunami of love is going to catch on and sweep the world is a culmination of the introduction to the human-condition-resolved transformed life in Freedom Essay 15*, and ‘How to become Transformed’ in Freedom Essay 33*.

JULY TO SEPTEMBER — IS IT TO BE TERMINAL ALIENATION OR TRANSFORMATION FOR THE HUMAN RACE? WAS PROMOTED TO THE SCIENTIFIC COMMUNITY

Since FREEDOM: The End Of The Human Condition is about the biology of human behaviour, the publisher’s first responsibility was to promote it within the scientific community. This was done in 2014 by publishing the book with a title that emphasised the serious plight of humanity, which science is ultimately responsible for solving—that title being IS IT TO BE Terminal Alienation or Transformation For The Human Race?. From July to September 2014 over 900 copies of IS IT TO BE were sent to leading scientific institutions, scientists and science commentators throughout the English-speaking world to introduce them to these world-saving understandings.

In February 2015, FREEDOM: The End Of The Human Condition (in the form of IS IT TO BE, which Professor Harry Prosen has described as ‘the book that saves the world’) was first made available to the public on our WTM website.

AN INDESCRIBABLY SPECIAL YEAR FOR THE WTM!!

2013 was an indescribably special year for the WTM, and, in fact, for the whole world. We completed the design of our wonderful website, we launched our social media and Jeremy finished writing his forthcoming summa masterpiece, FREEDOM: The End Of The Human Condition. (Note, as explained above, this first version of the book was titled IS IT TO BE Terminal Alienation or Transformation for the Human Race?) This book has developed into the most magnificent presentation of these world-saving insights into the human condition, and, as well, is an enthralling documentation of humanity’s journey leading up to this point in time where a future free of the human condition can finally take place.

To mark the significance of this year, and in celebration of the fabulous future for humanity that is now possible, Jeremy created a fabulous sun mandala of harmony and happiness from shells that he has collected over a six month period from one small beach in Sydney. While cockle shells are found on sandy sheltered beaches throughout the world, Jeremy has never seen these pure gold-coloured ones on any other beach. Oxide-stained yellowish cockle shells are usually a rusty brownish-yellow colour, but on this particular beach some are a pure gold colour. Jeremy found the large white scallop on the same beach, and he’s never seen a large white one like this before or since. The white star limpet shells can be found on pretty well any beach. WTM Founding Members Tony Gowing and James West built and gilded the frame. If you look closely you can see the WTM initials made from shells at the top of the frame. The whole picture is positively bursting with excitement!

THE WTM — ‘OUT AND ABOUT’!

In 2013 we launched the World Transformation Movement on Social Media with an incredible response — the WTM Facebook page* received phenomenal support with over 10,000 Likes in its first 3 months! Our YouTube channel* had a facelift and is very popular with hundreds of subscribers and thousands of videos being watched. Our Pinterest page* is a vibrant and fascinating collection of photographs, drawings, quotes and videos all representing important aspects of this human-condition-solving and therefore world-saving information. And our Twitter feed* is regularly tweeting interesting links to articles, drawings and videos, as well as quotes from the great thinkers of our time including Laurens van der Post, Saren Kierkegaard, Olive Schreiner and of course Jeremy Griffith.

With statistics showing that nearly one in four people worldwide will use social networks in 2013, this is a marvellous platform to get these understandings to a wider audience, and so is another significant step toward a human-condition-free world.

MAJOR OVERHAUL OF THE WTM WEBSITE UPLOADED

In January 2013, the results of a major overhaul of our website were uploaded, including a fresh design for our homepage and a new site search facility. Also, Freedom: Expanded was split into Book 1: The Biology, which presents the dreamed-of biological explanation of the human condition that ends our species’ underlying psychosis, and Book 2: The Transformation, which describes the fabulous transformation of the human race that results from finding the psychologically rehabilitating explanation of the human condition. Further additions by Jeremy Griffith, and edits by Fiona Cullen-Ward were added throughout both books. Designed to be the expanded, comprehensive account of Jeremy’s insights, we feel that these changes finally create the necessary framework to enable Jeremy to add new and exciting insights as he demystifies more and more of human life with his world-saving understandings, so this is a very great milestone for this project!

COURT OF APPEAL VINDICATES BIOLOGIST JEREMY GRIFFITH’S TREATISE ON THE ORIGINS OF THE HUMAN CONDITION

On 7 October 2010, at the culmination of the biggest defamation case in Australia’s history, the NSW Court of Appeal unanimously overturned an earlier Supreme Court finding concerning a defamatory 1995 *Four Corners* program about the WORLD TRANSFORMATION MOVEMENT. In a momentous judgment for our project, for science and for the future of the human race, the Court of Appeal recognized the unorthodox nature of Jeremy Griffith’s explanation of the origins and amelioration of the human condition, finding that the lower Court did “not adequately consider the nature and scale of its subject matter”, in particular “that the work was a grand narrative explanation from a holistic approach, involving teleological elements”.

SMH PUBLISHES APOLOGY TO FHA/WTM

On 6 June 2009, the *Herald* published the following apology to the FHA:

‘On 22 April 1995, the Sydney Morning Herald published an article by Reverend Doctor David Milikan which implied that the Foundation for Humanity’s Adulthood placed demands on its members which tore families apart. The Herald withdraws such inference and apologises to the Foundation for the harm caused by the publication;’

This apology was a great milestone in the FHA’s efforts to defy and defeat a 20-year campaign of persecution that has been waged against the critically important understanding of the human condition that the FHA was established to promote and defend.

The June 1999 edition of Inside Sport magazine published a six-page profile on Tim Macartney-Snape. This article documents Tim’s legendary stature as one of the most talented and accomplished mountaineers the world has seen. Mountaineering requires the highest levels of courage, perseverance and endurance and this article documents how Tim’s defence of the WTM has demanded all the proven qualities of his character.

MACARTNEY-SNAPÉ: ‘ONE OF THIS CENTURY’S GREATEST AUSTRALIANS’

As further testament to Tim Macartney-Snape’s stature, on 28 August 1999, The Australian newspaper recognised Tim as one of this century’s greatest Australians. In a special colour magazine titled ‘This Living Century’, Tim was listed with nine other Australian Adventurers — including Douglas Mawson and Charles Kingsford Smith — as ‘People who shaped our Nation’.

‘Macartney-Snape once wrote that adventure, as one form of the search to understand the truth, should be vigorously defended.’

THE ABA: ‘APPROPRIATE FOR ABC TO APOLOGISE’

In July 1998, the ABA took the unprecedented step of advising the ABC it would be appropriate to apologise to the FHA in light of the ABA ruling. Despite not exercising its right to challenge the ruling, the ABC refused to apologise. As a result the FHA was left with no option other than to consider taking defamation action against the ABC and Fairfax.

PROFESSOR CHARLES BIRCH LAUNCHES THE FHA’S WEBSITE

World leading biologist Professor Charles Birch, a winner of the Templeton Prize who has been described as ‘Australia’s leading thinker on the issue of science and God’, launched the FHA’s website at the Australian Museum in Sydney in October 1998 (now known as the WTM website). Professor Birch opened his address saying, ‘The FHA has had a positive and creative influence on many.’

PROFESSOR CHARLES BIRCH SAYS THE ABC SHOULD ‘APOLOGISE FOR ITS MISTAKE’

Professor Birch wrote to the ABA saying, ‘I consider it would be the only right thing for the ABC to admit the bias of the Four Corners program and to apologise for its mistake.’

RULING BY ABA FOR BREACH OF CODE

In February 1998, the ABA handed down a ruling which found Four Corners ‘inaccurate, unbalanced and partial’. The ABA concluded that the program was not balanced in its presentation of the experience of parents of Foundation members. The ABA also concluded that the program was inaccurate in its representation of Mr Griffith and inaccurate and lacked balance in its representation of Mr Tim Macartney-Snape.'
THE ABA CENSURES FOUR CORNERS

The ABA ruling received publicity in The Australian newspaper (reproduced below) and feature articles on the FHA appeared in both The Bulletin magazine (21 April 1998) and The Weekend Australian (9 May 1998).

ABA censures Four Corners

ABC television’s flagship Four Corners program was inaccurate and unfair in its portrayal of the Foundation for Human Awareness. The program also included false statements about its members.

The Australian Broadcasting Authority has issued Four Corners a supplementary finding that it “unfairly” portrayed the Foundation as a cult in a program screened in April 1997.

COMPLAINT TO THE INDEPENDENT COMPLAINTS REVIEW PANEL

In May 1996, the FHA complained to the ABC Independent Complaints Review Panel. The ICRP accepted the complaint, but the FHA decided to withdraw it due to the ICRP’s condition that the FHA relinquish its legal rights to take subsequent action against the ABC.

COMPLAINT TO THE AUSTRALIAN BROADCASTING AUTHORITY (ABA)

In August 1996, the FHA submitted a 900-page complaint concerning the ABC-TV Four Corners program to the ABA — Australia’s media watchdog.

**ABC-TV Four Corners Approach the FHA**

In April 1995, the Australian Broadcasting Corporation (ABC) broadcast the defamatory *Four Corners* program ‘Prophet of Oz’ concerning the FHA, Jeremy Griffith and Tim Macartney-Snape. The program was produced by Reverend Dr David Millikan of the Uniting Church, who also wrote a full-page article about the FHA in the *Sydney Morning Herald* titled ‘Prophet of the Posh’.

The FHA became aware of the defamatory nature of the program prior to it going to air and sent more than a dozen substantial letters of complaint and appeal to the ABC prior to the broadcast including a half-page press advertisement ‘open letter’ in *The Australian* newspaper to ABC managing director, Mr Brian Johns. Parents of university students who were interested in the FHA’s ideas also sent a joint letter of complaint to Brian Johns.

Following *Four Corners*, the FHA made numerous complaints, appeals and protests to the ABC — all to no avail. Having been dismissed by the ABC, the FHA distributed thousands of publications and held *open days and public lectures* to try and overcome the negative effects of the program.

**INTEREST & SUPPORT DEVELOPS AMONGST UNIVERSITY STUDENTS**

Following the launch of *Beyond* in 1991 and the subsequent media attention, reviews and commendations, interest in Jeremy Griffith’s work grew in academic and scientific circles. The FHA also attracted a new body of interest and support from a diverse range of people including university students from campuses in Sydney, Brisbane, Adelaide, Hobart and country New South Wales.

Jeremy Griffith, Tim Macartney-Snape and other FHA members were invited to speak about the FHA’s ideas in Universities and other intellectual and philosophical forums across Australia. Workshops, discussion forums and outdoor camps were also held to foster interest in and discussion of the ‘human condition’.

1993 | JEREMY GRIFFITH AND TIM MACARTNEY-SNAPE MEET SIR LAURENS VAN DER POST

In April 1993, Jeremy Griffith and Tim Macartney-Snape met with pre-eminent author and philosopher Sir Laurens van der Post and his wife Ingaret Giffard at their home in London, prior to Tim’s address to the Royal Geographical Society. Sir Laurens is one of the great inspirations for Jeremy’s work and after their time together Sir Laurens wrote to Jeremy saying, ‘Ingaret and I were very moved by your letter of 2nd May, the thought of us which you carried to Australia and gratitude for the visit for which the two of you took time off in a very busy schedule in England...I would hope you will always know how we value the examples you set and the work you are doing in Australia.’

PROFESSOR CHARLES BIRCH ADDRESSES FHA OPEN DAY

Emeritus Professor of Biology Charles Birch addressed a large gathering of FHA members, interested parties, parents and friends at the FHA’s Open Day in Sydney. Professor Birch said that there were ‘two huge themes’ in Jeremy Griffith’s books: the first being ‘the nature of the world’, and the second being ‘the nature of human nature’. He went on to explain that ‘science can’t deal with subjectivity’, and that subjectivity ‘is something that is very difficult to get your teeth into and yet it is the most important thing in the world’.

1990 | TIM MACARTNEY-SNAPE SUMMITS EVEREST WITH THE KEY ALOFT

In May 1990, Tim Macartney-Snape completed his second successful ascent of Mount Everest solo and without oxygen in his famous ‘Sea to Summit’ expedition, carrying with him the FHA’s key afloat flag. Starting at sea level from the Bay of Bengal, Tim became the first person to climb the entire 8874 metres of the world’s highest mountain.

1988 | THE FHA IS INCORPORATED

In early 1990 the CFHA changed its name to the Foundation for Humanity’s Adulthood (FHA).

At the initiative of a number of Sydney lawyers the FHA — now called the WTM — was incorporated in May 1990 as a company limited by guarantee in order to better develop and promote understanding of the human condition, and in particular the work of Jeremy Griffith. Significantly, three of the FHA/WTM’s founding directors, Jeremy, Tim Macartney-Snape and Chris Stephen, together with Jeremy’s brother Simon Griffith (appointed as a director in 1992), all attended Geelong Grammar School. The incorporation of the FHA/WTM paved the way for it to acquire an Authority to Fundraise for Charitable Purposes in 1991.

THE WORLD TRANSFORMATION MOVEMENT (WTM) IS FOUNDED

The WTM was originally founded in 1983 as the Centre For Humanity’s Adulthood (CFHA) by Australian biologist Jeremy Griffith to develop and promote understanding of the human condition. Jeremy’s writing on the human condition, which began in 1967 during his six-year search for the Thylacine or ‘Tasmanian Tiger’, grew from his desire to reconcile ideality and reality.
